March 2, 2020

Dear Parents and Guardians,

The Lakehurst School District has enhanced daily cleaning and sanitizing throughout the entire building and continues to monitor information from the CDC about cases of the coronavirus within the United States and are following current guidance provided by the New Jersey Department of Education and the New Jersey Department of Health. We will continue to post updated information that we receive from the New Jersey Department of Education on our website.

The Department of Health recommends that all families with a child who (within the past two weeks has traveled to an area of the world highly impacted by the coronavirus, to please contact their child's principal and/or school nurse prior to sending their child back to school.

Here are the most common recommendations for preventing the spread of the flu, coronavirus, and other viruses:

- Wash hands often, with soap and water, for at least 20 seconds, especially after coughing or sneezing.
- Cover your coughs and sneezes with a tissue or sleeve, not your hands.
- Avoid touching your eyes, nose, and mouth.
- Keep your children home when they are sick. Children should not return to school unless they have been fever-free without medication for 24 hours.
- Avoid people who are sick.
- Get a flu shot--it's not too late to be protected.
- Clean and disinfect frequently touched surfaces and objects.
- Encourage a "do not share" rule this season: food, drink, lip balm, pencils, etc.

Please do not hesitate to call the Main Office or Mrs. Hess with any questions or concerns.

Sincerely,

Loren B. Fuhring
